TESTIMONIAL FOR COMPMAGE

My computer is a vital business tool to The Best of Hounslow Borough and after 7 years of hard labour it was time for a major upgrade.

Jakub discussed with me the options recommending a new desktop with up-to-date operating system and upgraded software. When my old desktop caught a serious infection, time was of the essence and Jakub toiled over a weekend to build the new desktop, clean up the old PC and transfer all the relevant data across.

He delivered it to my door and made sure all was working OK. The difference he has made is fantastic! I can't believe the speed the new machine works at – if only I could keep up!

I would recommend Compimage to everyone to improve their IT.

Best regards

Martin Goldthorpe
Director
A4 Media Limited

PS My sons love it too!
